UNITED CAPITAL GROUP LTD
(Reg.: 171326)

Example of Futures Market trading

Margin trading

UNITED CAPITAL GROUP LTD
(Reg.: 171326)

- Trading transaction by way of margin trading is a facility provided to you in order to conduct a transaction whose value exceeds the paid-in capital.
- Margin in gold trading serves as collateral that you pay to the futures brokerage company as a security deposit, which serves to guarantee that you are able to fulfill the payment obligation

If you want to trade for the worth of 500k, you only require the margin 10k, depend of the leverage set

Two way trading

UNITED CAPITAL GROUP LTD
(Reg.: 171326)

- Basic principle of the two-way opportunity is opening a position that reflects market propensity
- One buys (buy new) when the price tends to increase (bullish) and closes by selling (sell close) when the price is higher
- One sells (sell new) when the price tends to decline (bearish) and closes by buying (buy close) when the price is lower
